### Self-Archiving Policy for Author(s)

---

By publishing in MedPulse Spectrum, authors transfer copyright to the journal. MedPulse Spectrum applies the **Creative Commons Attribution-NoDerivs (CC BY-ND) license** to all published articles. This license permits redistribution (commercial and non-commercial) provided the work remains **unchanged and in whole**, with appropriate credit to the journal. Our self-archiving policy under this license is outlined below:

**1. Pre-print Files:** A *pre-print* is the authors' original manuscript version **before** journal peer review.

Authors may share pre-prints on:

- Personal websites
- Pre-print servers (e.g., bioRxiv, arXiv)

**Upon publication in MedPulse Spectrum**, authors must:

- Acknowledge the journal publication.
- Link to the final version on the **MedPulse Spectrum website**.

*Suggested Acknowledgement:*

*"This is a pre-print of a paper subsequently published in MedPulse Spectrum, [Year, Volume, Issue Number]. The final version is available at: [https://jouex.com/index.php/medpulspect/article/view/\[article number/name\]](https://jouex.com/index.php/medpulspect/article/view/[article number/name])"*

**2. Authors' Accepted Manuscript (AAM)**

The *AAM* is the peer-reviewed manuscript **accepted for publication** but **before** copyediting/typesetting.

Authors may immediately share the AAM on:

- Personal websites
- Institutional/internal employer websites
- Institutional repositories

**Upon publication in MedPulse Spectrum**, authors must:

- Acknowledge the journal publication.
- Link to the final version on the **MedPulse Spectrum website**.

*Suggested Acknowledgement:*

*"This is the peer-reviewed but unedited version of a paper published in MedPulse Spectrum, [Year, Volume, Issue Number]. The final version is available at: [https://jouex.com/index.php/medpulspect/article/view/\[article number/name\]](https://jouex.com/index.php/medpulspect/article/view/[article number/name])"*

**3. Published Article (Version of Record)**

This is the final, copyedited, and typeset article published by **MedPulse Spectrum**. Under the CC BY-ND license, authors may **freely share** this published version with anyone via any channel (e.g., email, repositories, social media), provided:

- The article remains **unchanged and complete**.
- Credit is given to **MedPulse Spectrum**.

*Suggested Acknowledgement:*

*"This is the final published version of my/our paper in MedPulse Spectrum, [Year, Volume, Issue Number], available at: [https://jouex.com/index.php/medpulspect/article/view/\[article number/name\]](https://jouex.com/index.php/medpulspect/article/view/[article number/name])"*
